## ITPEnergised

> 75% repeat business

Helped > 250 clients achieve carbon targets in 2021

> 65 countries, > 30 developing countries

> 10 locations globally

Directly driving 7 of 17 UN SDGs

*7. Clean energy 8. Economic growth 9. Industry and Infrastructure  
10. No inequality 11. Sustainability 13. Climate action  
17. Partnership*

Our motivated staff are key to us and our clients

Delivered > 600 projects in 2021

Commercially minded & technology-enabled

# Passionate about Net Zero

## Our passion

### We deliver from a position of passion in all we do:

We're passionate about net zero. We are a team of industry leading trusted technical advisors who aim to meet and exceed our clients' aspirations, targeting growth markets and clients.

Our chosen clients are focused on our world's transition to net zero and include offshore wind developers, funds, lending banks, oil & gas companies, technology developers, regulators, government and industry bodies.

We work across the lifecycle of projects for our clients leading to the delivery of portfolios across sectors leveraging out key areas of expertise:

#### Sectors:

- Onshore Renewables & Storage
- Offshore Wind & Marine Renewables
- Oil & Gas Transition
- Property & Urban Regeneration
- Industry & Manufacturing
- Food & Beverage

#### Expertise:

- Corporate Advisory
- Environmental Planning
- Technology
- P3M

# Why we are different

## Differentiation

We think outside the box to help you transform your business:

- Understanding your bird's eye view on wider goals and objectives
- Bringing our passion, commitment and focus to your projects
- Delivering high quality, on time, on budget projects
- Bringing innovation and problem solving solutions
- Being confidently curious in all that we do
- Becoming an extended part of your inhouse team and advisors
- Understanding the commercial implications of technical discovery
- Challenging the status quo where it adds value – revenue, cost, time
- Thinking long term – pipeline, portfolio, platform - not just one project

# How we work with you

## Engagement

### We think win-win and full project life cycle to help our clients grow:

- Sector leads identify overall megatrends in sector scope:
  - Market size, growth and behaviour in short and medium term
  - Strategic actions of participants
  - A commercial view of the implications of sector trends
  - Key regulations that drive investment opportunities and risks
  - Thought leadership across emerging topics of client interest
  - Activate networks to provide multidisciplinary outcomes
  - Work with sister companies to provide international coverage
- We are then better placed to understand your wider goals
- We identify where you are in our life cycle of services
- We join the dots of when other ITP Energised services may be needed for you
- We close gaps in expertise needed with our comprehensive network
- We bridge relationships between clients to build net zero momentum where needs can be met in a win-win environment.

# Our expertise

## Technology

### Engineering

- Technology review
- Engineering review of systems design
- Substation site selection and routing designs
- Cable design including dynamic loading and asset reliability
- Substation layout design
- Grid connection concept
- Micro grid concept costing
- Private wire design

### Power Systems

- Load flow studies and reactive power capability, compensation equipment specification and optimisation
- Short circuit (fault level) equipment rating
- Transient network strength studies and stability (SCR, weak grid)
- Electrical losses assessment and design optimisation
- Grid Code compliance tests, studies and model validation
- Cable rating, including offshore dynamic cable rating
- Network constraint modelling

### Development Project Management & Grid Services

- Project design development and management
- Site finding and resource assessment
- Grid application preparation, support and due diligence
- Network connection costing
- Procurement support
- Programme management

### Regulation Services

- Licensing, exemptions, regulatory requirements, metering systems, obligations and arrangements.
- Grid connection costs
- System charges (TNUoS, GDUoS)
- Balancing charges (BSUoS)
- Transmission loss multipliers, benefits and credits, underwriting and security requirements.
- Charging arrangements for transmission and distribution connected projects.
- Provision of consultation briefings and responses to help our clients be heard and protect their projects.

Trusted Technical Advisor

# Our expertise

## Environmental Planning

### Environmental & Social Impact Assessment

- Constraints analyses
- Feasibility, screening, scoping
- EIA project management & coordination
- Regulatory consultation
- Technical disciplines
- Consent strategy
- Planning application, DCO, s36 and Marine Licence
- Stakeholder engagement & strategy
- Public inquiry
- Expert witness

### Ecology & Ornithology

- Habitat and botanical survey
- Preliminary Ecological Assessment
- Specialist species surveys
- Biodiversity enhancement
- Habitat management plans
- EPS licence

### Construction Environmental Management

- Licensing support
- CEMP
- Environmental monitoring
- Habitat management
- Environmental clerk of works
- Ecological clerk of works

Trusted Technical Advisor

# Our expertise

## Corporate Advisory

### ESG & Sustainable Development and Finance

- ESG strategy and performance
- Impact investing
- Stakeholder engagement
- Carbon strategy
- Compliance and diligence
- TCFD alignment
- Benchmarking (CDP, SDGs)
- GHG reporting and verification
- Programme management
- Capacity building and training

### Energy and Low Carbon Transition

- Energy management system design and auditing
- Energy and carbon permitting
- Decarbonisation and net zero strategy planning
- Technical and commercial feasibility assessments
- On-site energy generation feasibility
- Energy Performance Certificates
- Behavioural change programmes

### EHS, Permitting & Compliance

- Applications, variations and surrenders
- Emissions monitoring and assessment
- Air Quality modelling (ADMS, Aermid, Puff)
- Environmental Management Systems
- Regulator and stakeholder liaison
- Compliance support
- Improvement conditions

### Asset Management & Technical Due Diligence

- Technical asset management
- Financial asset management
- Technical due diligence
- Technical advisory and Client's Engineer
- Solar design

### Air Quality & Acoustics

- Odour and Noise monitoring
- Modelling and interpretation
- Liaison with stakeholders
- Odour and Noise control and abatement
- Best Available Techniques assessment and justification
- Cost benefit analysis
- Private nuisance support

## P3M

### Project Management

- Setting project brief
- Business case support
- Appointing, leading and motivating the team
- Managing risk, change, finances and progress
- Service agnostic leadership & drive
- Managing progress vs plan
- Procurement and contract management
- Stakeholder management
- Guardians of guidelines and quality
- Controlled project closure & recycling LfE

### Programme Management

- Coordinated management of inter-related projects
- Time, resource and capital management
- Matching team & technology to strategic vision
- Providing interdisciplinary input
- Stakeholder management
- Using lessons learned to add efficiency
- Managing relationship between projects and programme
- Delivering the big picture

### Portfolio Management

- Selection & prioritisation of opportunities through the funnel
- Developing & managing portfolio roadmap and plan
- Establishing suitable governance framework
- Developing portfolio team
- Maintaining whole portfolio overview
- Coordinating interdisciplinary expertise
- Identifying Lessons Learned and harnessing LfE
- Delivering better overall outcomes

### Development Management

- Full wraparound service for whole development process
- Holistic whole project overview
- Client's advisor
- Collaborative project brief setting
- Coordinating multidisciplinary teams
- Managing stakeholders, public consultations
- Full appraisal of new opportunities (due diligence, feasibility studies etc)

Trusted Technical Advisor

# Some of our clients

# Client Testimonials

## What clients say about us

- “Cooperative and friendly local team” – BayWa r.e.
- “Excellent work from team getting this application submitted” – Scottish Power Renewables
- “Delighted by work / proactivity” – Scottish and Southern Energy
- “Amazing job all and thank you for never dropping the ball, you have managed the application incredibly” – 3R Energy
- “Thanks and well done on successful completion” – Alpha Real
- “Very diligent, logical and thorough” – Orkney Islands Council
