

# Battery Storage Application

## Intended User

Developers/ owners/operators/ funds/ new market entrants with an appetite to develop battery storage projects in standalone/ hybrid renewable configurations wishing to gain a basic understanding of battery storage in the GB market.

## The Problem

Storage is the negative space of variable renewable energy in both the physics and economics to achieve grid balancing. Our application provides a simple guide to battery storage, the pipeline in the GB market and a description of some of the key revenue streams and costs.

## Our Solution

Our battery storage application is for educational purposes, tracking key developments in the market and changes in the GB regulations that provide the framework for revenue streams.

## Typical benefits

- ⇒ Accelerated learning and situational awareness
- ⇒ Visibility on key technical terms
- ⇒ Provision of clarity in a rapidly changing regulatory environment
- ⇒ Compatible with other ITPEnegised NZA digital tools such as our battery storage financial modelling suite
- ⇒ Encrypted database, cybersecure, authentication measures
